

INTERCOLLEGIATE BROADCASTING SYSTEM, INC.

507 FIFTH AVE.
NEW YORK, N. Y.

March 3, 1942

Mr. Bennett LOrd
Station WPRU
Princeton University
Princeton, N. J.

Dear Bennett:

You have received, or will receive shortly under separate cover material from the Program Department. Included in this material is a questionnaire on program and production procedure for our files, which should be filled out and returned immediately.

In the near future, you will receive an FREC catalogue of recordings available on two weeks loan from the US Office of Education. There are some good shows included in this list. Further recordings that will be available within two or three weeks direct from the IBS will be the OEM's four-minute "Work For Victory" and fifteen-minute "You Can't Do Business With Hitler" series, and the Treasury's "Star Parade" shows. All of the above, including the FREC shows, can only be played on 16" 33 1/3 turn-tables. If your station is so equipped, and you are interested in receiving any of these series as they are produced, write to me immediately. The recordings will become the property of your station and can be used for any non-commercial purpose.

ODD NOTES:

If you are troubled by a script problem at Princeton, we suggest as a stop-gap, the book "100 Non-Royalty Scripts", published by Greenberg, 67 West 44th Street, N. Y., which has some good material.

Most of you have been until now receiving BBC schedules and publicity. We feel that these are not too valuable to the member stations, but in case you still wish to receive this material, include this request in your return letter.

We would also appreciate receiving from you a revised list of all your personnel, with their respective mailing addresses.

Since any further action by us on the above suggestions will depend on your reply, please answer promptly.

Sincerely yours,

Lincoln Diamant
Acting Program Director
